

Discovery & prototype

Custom project quote

A staged project quote after discovery. Platforms, integrations, scope, and ongoing costs are agreed before work begins.

Understand the need

Map users, core tasks, constraints, and the existing workflow.

Prototype the essentials

Create a focused interactive flow for the most important use cases.

Decide what comes next

Review the findings and define the scope, platform, and next stage.

Written estimate

I confirm the deliverables, schedule, revisions, usage, equipment, and any outside costs with you before work begins.

Project budgets

My listed rates are the standard for commercial and brand work. I'm open to discussing reduced rates for independent, micro-budget, or cause-led projects. I may occasionally work pro bono when I have the time and resources. Let's talk about your project and budget before deciding.
