

Ecommerce Website

From \$3,500

Theme-based Shopify, core pages and up to 10 products. 2 revision rounds.

Process

I start with a conversation about your goals, audience, budget, and timing. We agree the scope, work through the design, then build, review, and launch.

Included in a new build

Mobile layout and launch are included in the landing page, business, expanded website, and ecommerce packages.

Separate costs

Hosting, domains, subscriptions, and new content production are separate. Additional pages, revisions, integrations, and larger features are quoted before work begins.

Project budgets

My listed rates are the standard for commercial and brand work. I'm open to discussing reduced rates for independent, micro-budget, or cause-led projects. I may occasionally work pro bono when I have the time and resources. Let's talk about your project and budget before deciding.

Proposed starting prices for private review. Final scope and timing are confirmed in a written estimate.
